Ansh Karwa

Software Developer Intern @ Shalaka Connected Devices | AI-ML &
Data Science Enthusiast | CSE'26 @ MIT-WPU
Pune, Maharashtra, India

Summary

I'm Ansh Karwa, a passionate Data Scientist and Analyst-in-the-making with a strong foundation in building predictive models and analyzing complex datasets. I thrive on transforming raw data into meaningful insights that drive smarter business decisions.

What I Do:

- ✓ Data Analytics & Wrangling – Cleaning and analyzing large datasets using Python (Pandas, NumPy) to uncover key trends and patterns.
- ✓ Machine Learning & Modeling – Leveraging ML frameworks to create impactful solutions and predictive models.
- ✓ SQL & Database Management – Working with MySQL, MongoDB, and PostgreSQL to manage and extract data efficiently.
- ✓ Data Visualization – Crafting effective insights and visual stories to help stakeholders make data-driven decisions.
- ✓ Software Integration – Architecting full-stack solutions and deploying models using Flask, React, and Docker.

Experience & Achievements:

- ✓ Data Visualization Certification – Completed a job simulation with Tata Consultancy Services through Forage, focusing on creating visualizations for senior leadership.
- ✓ Technical Versatility – Proficient in a wide range of tools including TensorFlow, PyTorch, Scikit-learn, and OpenCV.
- ✓ Analytical Leadership – Proven ability in analytical thinking, team collaboration, and project management within dynamic environments.
- ✓ Cloud & Dev Tools – Experienced in using Google Cloud Platform, Git, and various IDEs for streamlined development.

My Mission:

I'm on a journey to master the intersection of Data Analytics and Artificial Intelligence to solve real-world problems. My goal is to

combine technical expertise in Python and SQL with business acumen to contribute to data-driven decision-making in a fast-paced industry.

Let's Connect! I'm always open to networking, learning opportunities, or discussing the latest trends in the data world.

Experience

Shalaka Connected Devices

AI / ML & Data Engineering Intern

January 2026 - Present (2 months)

Pune, Maharashtra, India

AI/ML Intern at Shalaka Connected Devices LLP, working on applied machine learning and data analytics for IoT and connected systems. Gaining hands-on experience with Python-based ML workflows, sensor data processing, model experimentation, and integration with backend and cloud platforms. Collaborating with cross-functional teams to build scalable, production-oriented AI solutions.

Key Contributions & Areas of Work:

AI/ML Workflows: Developing and evaluating machine learning models on diverse datasets, focusing on performance reporting and model versioning.

IoT Telemetry & Analytics: Analyzing large-scale IoT data streams to derive actionable insights and implement anomaly detection for industrial applications.

Generative AI Research: Conducting experiments with Generative AI to optimize product engineering workflows and internal system logic.

Data Engineering: Managing the end-to-end data lifecycle, including collection, cleaning, labeling, and synthetic dataset generation.

Cloud & UI/UX Integration: Collaborating on cloud portal development by providing UI/UX wireframes and supporting backend implementation for data visualization.

Full-Stack Pipeline Development: Bridging the gap between physical device telemetry and cloud-based AI, ensuring reliable data ingestion and storage.

Production Standards: Maintaining extensive technical documentation, including model evaluation results and system architecture notes, to support scalable production deployments.

Education

MIT World Peace University

Bachelor of Technology - BTech, CSE · (August 2022 - May 2026)

Arya Gurukul International Jr College

Integrated 11th and 12th , Science · (March 2020 - March 2022)

D.A.V. Public School - Thane

4th -10th, Student

Mahapragya Public School - Mumbai

Till 4th
